 Vicar for Communications for the Diocese of Brooklyn

Follow Msgr. Harrington @MonsignorH

School bells were ringing all throughout our city this week. Books were being distributed. Life is getting back to normal. Fifteen years ago was not that different than today. That would all change on September 11th. The wounds of that day have left an indelible mark. Life has gotten back to normal but not quite. Take some time today and take an inventory of your life. If you are angry or not speaking with a family member – reach out! Kiss your spouse and hold them tight this evening. Tell your children that you love them. Tomorrow it can all change – it already has. Do you remember that fateful day? I remember the silent stream of people who popped into church to say a prayer or go to confession. The civility with which we spoke to others and our attentiveness to the pain we were experiencing. Fifteen years ago was not that different than today. But that all changed on September 11th. May God bless you.
