

MYSTERIES *of the* CHURCH

Mysteries of the Church continues with an upcoming episode on miracles of stigmata. In this episode, we examine one of the most wonderful blessings of the Church: the intense, visually provocative miracle of stigmata in the cases of Padre Pio, St. Francis of Assisi, and others.

We also look at how stigmata affects everyday New Yorkers who are led by Christ. How do these symbols inspire? What is the process by which the Church officially recognizes some instances and rejects others? Are these often bloody episodes a reflection of a deep bond with Christ? Or a more mysterious phenomena?
